

“We at Complete Steel are proud of our association with Decmil and all of the projects we have completed in conjunction with them.”

Dom Carbone, Managing Director

Complete Steel Projects provides a range of quality services including structural steel erection, mechanical rigging, cladding, tilt up panel, pre-cast concrete erection and equipment and labour hire across the West Australian mining and resources, industrial and commercial industries.

We specialise in remote area construction, logistics and infrastructure services and have a proven track record of delivering projects on time and within budget in remote areas such as accommodation blocks at the Christmas Creek FMG site and at the Porthaven BHP site.
